

实验室交流周报告

——第17周

报告人：汪继龙

时 间：2018.06.29

本周工作

- 完成博士阶段课程，项目结课《Artificial Intelligence》
- 论文拒稿，修改。（主要工作）
- 查阅文献资料
- 其他

Decision Letter (TBME-00800-2018)

From: tbme-office@embs.org

To: rui@hnu.edu.cn

CC:

Subject: TBME-00800-2018 - decision made

Body: Dear Dr. Li,

Thank you for submitting your work to the IEEE Transactions on Biomedical Engineering (TBME). Your manuscript "Noise Reduction of Electrocardiogram by Adversarial Method" (TBME-00800-2018) which has been considered by the TBME editorial board but we regret to inform you will not be considered further as a submission to TBME.

TBME receives a large number of papers on various areas in biomedical engineering; as a result, the threshold for acceptance is high and we have to prescreen all submissions to determine it's fitting to TBME. The associate editor handling the review suggests submitting it to a more specialized journal.

In order to allow you to submit the work to a more suitable journal as soon as possible, no further processing of the manuscript will take place.

We are sorry not to have better news for you on this occasion and hope you will find success in publishing your work elsewhere.

Once again, thank you for choosing TBME to submit your scientific work. Please consider TBME for your future papers that report works of interest to the general readership of biomedical engineering.

Sincerely,

Bin He
Editor in Chief
IEEE Transactions on Biomedical Engineering

Date Sent: 23-Jun-2018

下一步计划

1. 论文修改投出；
2. 准备开题；
3. 做实验；

欢迎批评指正
谢谢大家！
